

Instant Revenue Bonus Method #4

BosaX Method

I will make this bonus method easy to read and straight to the point.

In this method we will be using this website <http://bosafinancial.ca> a crypto firm based in Vancouver, Canada.

They have a traditional service where accredited investors can earn returns on their investment. But they also have a private program called **BosaX**. In this service they will put the money down (initial investment) first for you and they take 10% of returns to pay for the money they put down. So in theory you pay **nothing at all** and earn returns daily/weekly/monthly.

To become apart of this service you need to go to this link to register <http://bosafinancial.ca/portal/public/register>

You can use fake information as there is no ID verification required.

WWW.EDOLLAREARN.COM

Once you register do not deposit any crypto or money, you will need to email them directly to apply for the **BosaX** service. This is the template you can use:

Hello,

I have been referred to the BosaX program by Pierre Vénéreau of Insula Investment Management. I am an accredited investor located in Montreal and this looks like a wonderful opportunity and I would like to give the program a try to expand my portfolio. I have an existing account on the client portal with the email example@email.com I have a network of high networth individuals that I would recommend this service to in the future. Please let me know the details at your latest convenience.

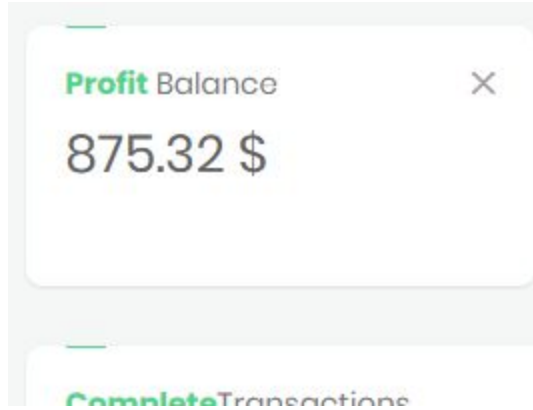

Regards,
Fake Name

Email them at both support@bosafinancial.ca and bosafinancial@gmail.com for faster response

You should try to edit the template a little bit to differentiate yourself from the other using this method as well. Just be sure to include Pierre Vénéreau of Insula Investment Management in the template. Change the email with the email you used to sign up on the client portal and sign your name at the bottom with the name you used on the client portal as well. You should change Montreal with any other big city in Canada.

You will likely get a response from one of the Bosa staff within a few hours. They will approve your account and give you options of how much money you would like invested in your account. (Keep in mind you can't withdraw the initial amount they give you.. So don't think about stealing it lol) The higher amount they give you the more you will earn daily/monthly. They will take 10% of all the profits that you earn in your account. If you get **\$25,000** added to your account for example you will earn **\$1250.00** a month, and after they take the \$125.00 fee you can keep \$1125.00 for yourself. They usually do not start your account that high but you need to eventually email again asking if they can raise the amount.

After application they will tell you how often you can withdraw and will ask for the withdrawal payment method, Paypal, Payoneer, or Crypto usually.

All your earnings will show up in the **Profit** wallet

Depending on your account type and your withdrawal period and minimum withdraw amount you'll be able to go to this link to request a withdrawal (if btc is not an option you might have to email them manually for a withdraw request)

<http://bosafinancial.ca/portal/public/withdrawal/request>

Throughout the month they will send surveys with questions regarding the service and how they can improve and you have to answer all of them and all their emails or you risk the chance of getting kicked out of the service for being inactive. Throughout the year your account might get disabled and you can just sign up again.
